

Attached is the 2021-22 fall schedule. This season is definitely different, in the sense that we will start the year working in sections, rather than the full Chorale. This is designed to accomplish several things...

- To give sufficient rehearsal time to Adventures in Harmony (sopranos and altos)
- To build strong technique and blend within the sections from the beginning of the season
- To avoid large numbers of people in the confined space of the choral rehearsal room.

We have discussed the option of a Tulip Time performance, and decided against it. Many of our singers have conflicts once we go into May (exams, graduations, family events, etc.), and this would decrease participation. Also, we have some strong singers who feel that March, April and May performances are too much. Just a reminder that we have the Beethoven/Beatles concert in March and the Beethoven 9th Symphony performance in April.

I'm on Cape Cod this week and will miss the board meeting. Hope it goes well, and I'll see you in August!

Patrick
